PAID UP CAPITAL - - \$2,000,000

RESERVE FUND - - 850,000

TOTAL ASSETS - - - 6,500,000

#### MONEY LOANED AT REDUCED RATES.

Loans effected for any time up to 20 years on productive real estate situate in Ontario, redeemable by means of a Sinking Fund, which is found to be the surest, easiest, and cheapest mode of repaying a loan.

#### The instalments required to pay a loan of \$1000, are as follows

TIME.	8 Years	4 Years	5 Years	6 Years	7 Years	8 Years
Half Yearly Yearly	192 30 8 <b>9</b> 1 50	150 10 305 30	124 80 253 80	108 10 219 60	96 20 195 40	87 40 177 80
TIME.	9 Years	10 Years	12 Years	15 Years	20 Years	
Half Yearly	80 60 168 40	75 20 152 40	67 30 136 20	59 60 120 40		••••••

These Instalments, payable at the end of each year or half-year, pay off the entire debt, Principal as well as Interest.

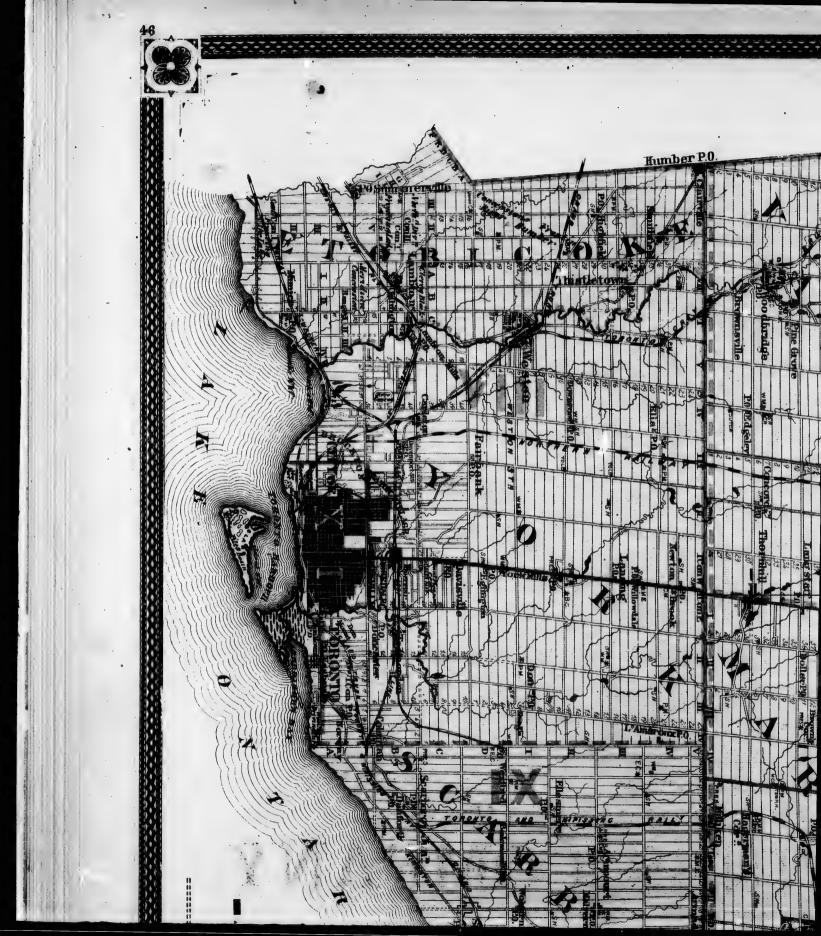

Loans may also be effected at a fixed rate of Interest, the Principal to be repaid by instalments, or at the end of a term of years.

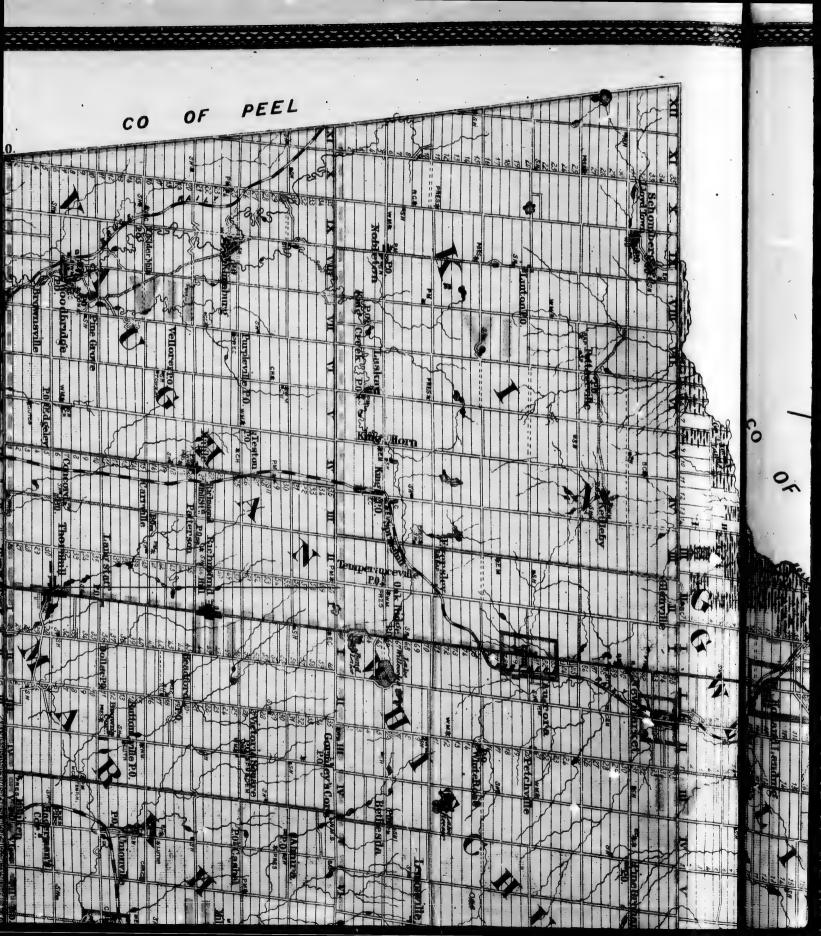

Municipal Debentures and Mortgages on Real Estate purchased.

For further information apply to the Company's local Appraisers, who are authorized to receive applications for Loans, or to the Manager,

### ONTARIO LADIES COLLEGE,

The ONTARIO LADIES' COLLEGE, at Whitby, offers the following advantages:

1st. The finest buildings and grounds in Canada devoted to the higher education of young ladies. During the past year the new Ryerson Hall has been erected, with complete suite of six recitation rooms, twenty-four rooms for pupils, and other conveniences. We have now ten acres of lawns and gardens, and accommodation for 125 pupils.

2nd. A very complete and efficient staff of instructors. Provision is made for a thorough grounding in English, as the true foundation for a finished education. The simplest elementary subjects are not overlooked, so that pupils may enter with advantage at an early age, and in any stage of advancement. Classics, Mathematics, Modern Languages, Mental and Moral Philosophy, &c., are embraced in the regular course.

Particular attention will be given to the preparation of pupils for the Intermediate and Matriculation examinations.

Special facilities are afforded for acquiring a thorough and practical knowledge of Science. A fine collection of Maps, Globes, Physiological and Botanical Charts, Philosophical and Chemical Apparatus, a compound Microscope and a Telescope, are provided for College use; also an excellent Museum of Minerals, Fossils, Casts of Fossils, Stuffed Birds, and Mammals. The Music Department, under the management of F. H. Torrington, Esq., Con-

ductor of the Philharmonic Society of Toronto, assisted by several ladies of acknowledged ability, is in the highest state of efficiency. French and German are taught by an accomplished lady, who speaks both languages, and who also possesses a good knowledge of English. Drawing, Painting, &c., are taught in the most effective manner.

3rd. Well regulated exercise in walking, calisthenics, and riding, under an efficient master; wholesome and nutritious diet; rooms comfortably furnished and well ventilated.

4th. Honours to be competed for:—A gold medal from James Paterson, Esq., of Toronto; the Christina Teskey Scholarship from Albert Teskey, Esq., of Appleton, and more than \$150 worth of prizes.

ROLPH, SMITH & CO TORONTO.

### DEMILL LADIES' COLLEGI

at Oshawa, with the proposed extension. The left wing shown is the building now in actual use, and although it has secommodation for over one hundred students, it has been found insufficient, and the above handsome addition has been planned, and will shortly be erected.

The College was founded and opened on the first of February, 1876, by the Rev. Alfred Byron Demill. The grounds on which it is built comprise twenty acres of land, on one of the finest elevations that could be selected. From the Institution may be had a most commanding view of the surrounding country, abounding in interesting features, comprising the flourishing town of Oshawa, the beautiful and extensive lake view, the main line of the Grand Trunk Railway, and a large and diversified expanse of fertile farms. The College is leading and diversified expanse of fertile farms.

Prowse's combination of hot water and hot air, is in operation all over the building, by means of which a healthy, pleasant and equal temperature is always maintained. Gas is used throughout the College, thereby insuring both the health and safety of the inmates. The grounds have been planted with ornamental and fruit trees as well as shrubs and small fruits. All this combines to render it mest attractive as a moss, and the watchful care of the faculty extends to the physical comforts, moral and religious character, and hygienic needs of the students, as well as to their mental education.

No day pupils are received, as all are required to board in the building, so that a most careful oversight may be maintained. Regular outdoor exercise, with calisthenics and gymnastics, ensure a healthy physical development. The teachers are chosen for their excellent moral and religious character as well as for their literary culture and

abi ass is t

# COLLEGE, OSHAWA, ONTARIO.

t air, is in operhich a healthy, aintained. Gas suring both the bounds have been well as shrubs ar it mest attracbaculty extends as character, and to their mental

quired to board versight may be with calisthenics al development. I moral and reary culture and ability to impart instruction, so that parents may rest assured that, while the College is non-sectarian, every pains is taken to watch over the moral and religious principles of the students.

In order to prepare the students for their life-work and usefulness, a system of domestic training has been introduced, so that each student has one hour a day in this branch of instruction which is so important for their health and habits of life. This feature in our course has secured us the commendation and patronage of some of the best families in the land.

The full curriculum used in the best Colleges is in force, and embraces English in all its branches; Music, Vocal and Instrumental; the Classics, and the French and German languages. The Art Department includes: Drawing in Crayon and Water Colors, and Oil Painting; and the Ornamental Department embraces instruction in Woolwork, Wax Fruits and Flowers, Lace, etc.

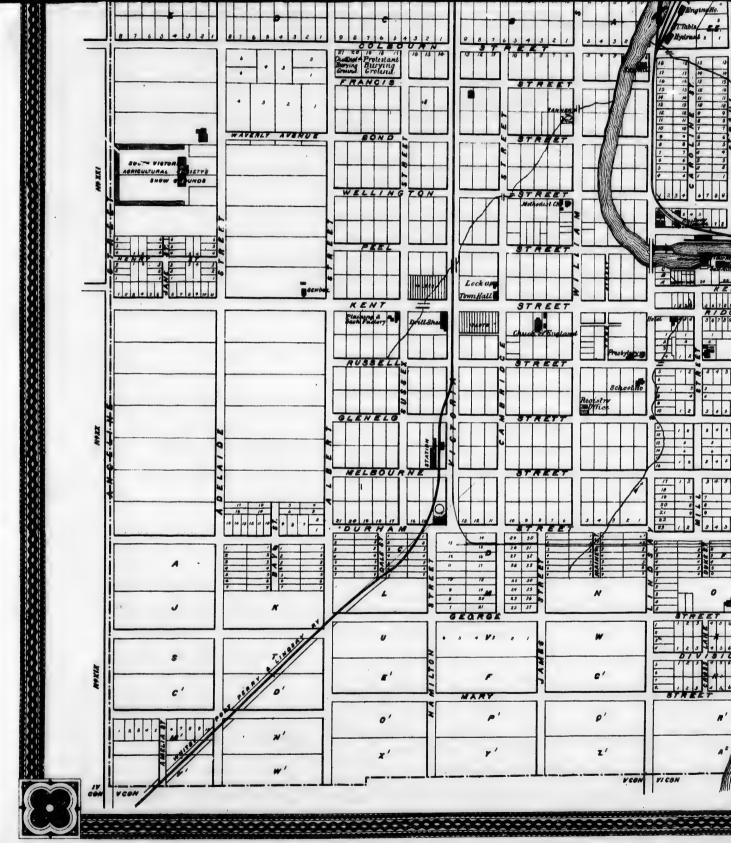

Students who take a full course and pass a satisfactory examination, receive the Degree of Mistress of English Literature when the English Course only is taken, and that of Mistress of Liberal Arts when it includes the languages and classics.

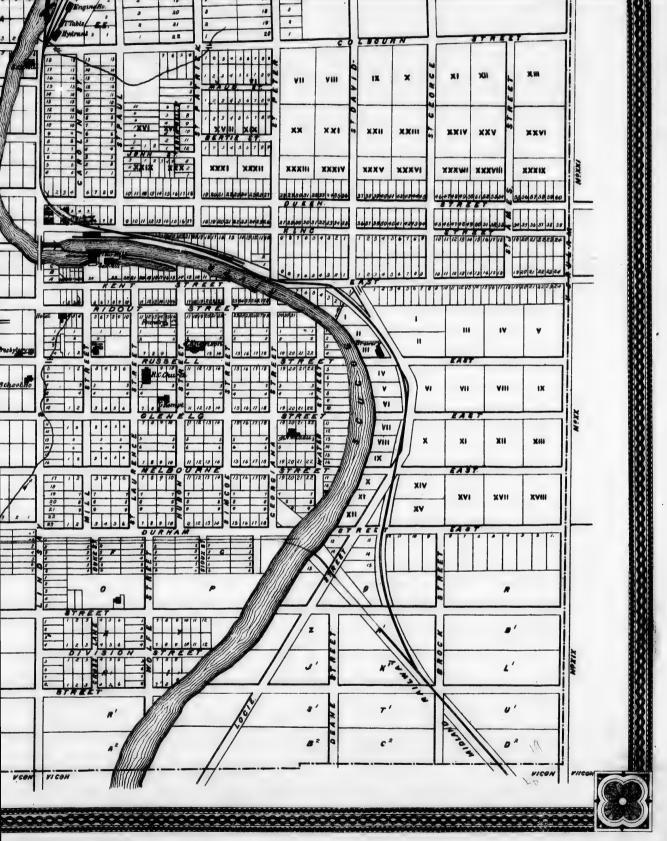

Although there is no assistance from a denominational source, or from any shareholders, yet this College has had an excellent attendance, the average being from eighty to eighty-five students, all boarders, and the pledges of future patronages are most encouraging. The price of board and tuition in all of the branches taught, is less, it is believed, in this College than in any other Institution in this country. Circulars with full particulars may be had by addressing

DISTRICT SUPERINTENDENTS, - - - N. W. BETHUNE, OTTAWA; E.

This popular and strictly Canadian Company, which has its wires laid along the line of railways and connections, was incorporated in the year 1847, with a capital of \$60,000, and began its operations with 12 or 15 offices between Montreal and Quebec. Its history has been an uninterrupted success from the start, its lines having been extended to the remotest sections of the country wherever they may be maintained, and offices opened in nearly every village and hamlet through the country. Its capital stock has been increased to \$2,000,000; its miles of lines to 22,000; and its number of offices to over 1,500. Extensions are constantly going forward into newer and remoter sections of the country as routes are opened up, and new offices are almost daily being opened.

This Company is apparently unaffected in its prosperity by rival schemes, having outlived several in the course of its history. No country in the world is probably better served in the matter of telegraphic communication than Canada.

The greatin development which which has, in fademandin Dwight, treturn for of trade territory.

### MONTREAL.

CAMPBELL, M.D., HON. E. G. PENNY. | SECRETARY, JAMES DAKERS. | TREASURER, CHARLES BOURNE. GENERAL EASTERN SUPERINTENDENT, - - - - JAMES DAKERS, MONTREAL

HUNE, OTTAWA: E. POPE, QUEBEC: D. VAN OSTRAND, WATERTOWN,

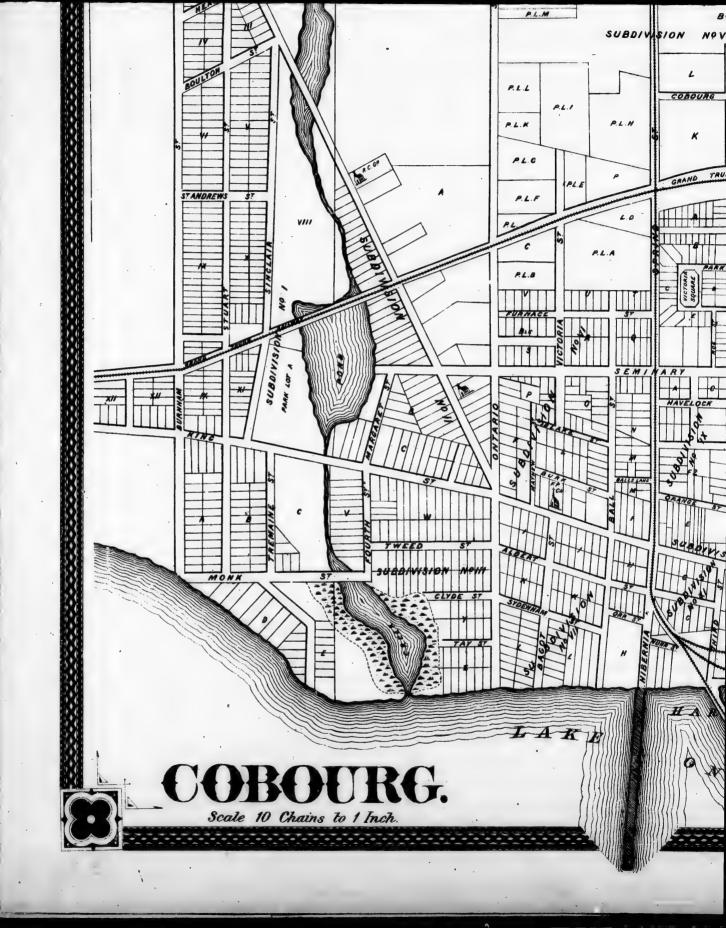

The great abilities and enterprising spirit of Sir Hugh Allan, the President of the Company, have been as serviceable in developing the organisation we are now describing as in founding the magnificant system of Oceanic communication with which his name is so familiarly identified. An enterprising, but at the same time shrewed and far-seeing policy has, in fact, characterized the Company's operations from the very outset. In this respect, and in all questions demanding liberal and comprehensive action, this Company has been greately assisted by possessing in Mr. H. P. Dwight, the Superintendent of the Western District, a gentleman who has had regard not so much for an immediate return for the work undertaken as the certain, steady expansion of business in a corresponding ratio with the increase of trade or population. Mr. Dwight's management extends over the most important section of the Company's territory.
